## Summary

---

Motivated Computer Science graduate from San Diego State University with experience in Software Development. In-depth understanding of web technologies with focus on delivering innovative business solutions. Excels in a fast-paced, high-energy and deadline-driven environment with eagerness to take on additional tasks.

## EDUCATION

---

San Diego State University, San Diego, CA – Bachelor of Science, Computer Science

DEC 2020

## SKILLS

---

**Languages:** Java, Python3, C, C++, JavaScript, CSS, **Other:** Unit Testing, Django, API Design, Flask, HTML5, Assembly Language, SQL, React.js, Node.JS, MongoDB, GIT, Express.js

## RELEVANT EXPERIENCE

---

Spotify Music Controller – Full-stack Developer

Languages: Python3, JavaScript

- Created a web application that allows multiple users to control the current song playing on any device using Spotify.
- Used Django to authenticate Spotify users and gather tokens to make requests to Spotify's API.
- Utilized making API requests from the back-end to ensure security from potential threats.
- Integrated React JS using Webpack and Babel to transpile JavaScript code and make it responsive on various browsers.

Expense Tracker – JavaScript Developer

Language: JavaScript, CSS, HTML

- A simple application that allows users to track their incomes and expenses.
- Implemented voice-to-text capabilities through Speechly to allow users to verbally fill out the form.
- Learned about the nuances of state management through React Context API, and saving local storage.
- Achieved a minimal yet beautiful interface through Material-UI that dynamically displays the user's data.

Graffiti Incident Tracking System – Front-end Developer

Languages: Python3, HTML, CSS, JavaScript

- In charge of front-end development using HTML5, JavaScript, and Bootstrap toolkit.
- Used Flask to create forms and validations so reports can be saved and edited from the database.
- Created unit tests with Selenium to ensure that the requirements functioned as desired.
- Collaborated on weekly deliverables, test reports, project notebooks, and team peer review forms using agile planning.

## EMPLOYMENT HISTORY

---

Romano's Macaroni Grill, Chula Vista, CA – Server

JUL 2018 – JUN 2020

- Developed strong and lasting relationships with customers.
- Addressed concerns or complaints quickly to improve service and escalated more advanced issues to management for resolution.

McDonald's, Chula Vista, CA – Crew Trainer

DEC 2016 – MAY 2018

- Developed and implemented strategies to enhance team performance, improve processes and boost results.
- Blended business's goals, mission and values with learning development initiatives to deliver high-quality training to employees.
